OBJECTIVE

Accomplished UX Designer with 5+ years crafting intuitive designs for web and mobile platforms. Expertise in user research, wireframing, prototyping, and usability testing, underpinned by a strong design thinking approach. Proven success in delivering impactful projects and adept at steering cross-functional teams from initial research through to launch.

SKILLS

- **Technical Skills:** Proficient in UI design tools like Figma, Adobe XD, and Sketch. Skilled in graphic design software (Adobe Photoshop, Illustrator). Experienced in prototyping with tools like InVision and Axure. Strong knowledge of wireframing (Figma, Balsamiq) and responsive design. Familiar with creating and maintaining design systems and component libraries.

- **UX Skills:** Conducting user research (surveys, interviews, usability testing), creating user journey maps, designing intuitive interactions, organizing information architecture, and ensuring accessibility standards (WCAG compliance).

- **Soft Skills:** Effective collaboration with cross-functional teams, problem-solving complex design challenges, excellent communication for presenting ideas, managing time and multiple projects, and maintaining attention to detail.

- **Leadership and Strategy:** Mentoring junior designers, leading design projects, managing stakeholders, working in agile environments, and aligning design decisions with business objectives.
